

Glove Measuring Guide

The proper size will provide the best protection and performance.

It is important to properly measure your hand so that gloves fit correctly.

- Wrap a soft cloth measuring tape entirely around your dominant hand, just below the knuckles. For reference, your dominant hand would be your right if you are right-handed and left if you are left-handed.
- If you don't have a soft cloth measuring tape you can wrap a piece of string around your hand and measure the length of the string using a ruler.
- Take the full circumference measurement and compare it to the chart for the recommended glove size*.

This example shows a circumference measurement of 9 inches.
The recommended glove size for this user would be Large (9).

* Estimate size to the closest fit

** Hand proportions may vary

Numeric Size	Letter Size	Inches**
5	XXS	5
6	XS	6
7	S	7
8	M	8
9	L	9
10	XL	10
11	2XL	11
